“ This is definitely different for me I lived with you and you partially raised me, the shock is unbearable and unbelievable. You the only auntie I ever lived with and ever help raise me. I remember all the times we had since I was a child. I knew when you had children you were going to be the best mom because you were only an auntie to me and was the best, no other auntie I have treated me the way you did so this hit different for me. Had I known April 13 when you called me was the last call I definitely would have answered that phone now I have to live with that forever I am keeping you alive in my mind and my heart so that I won't break down I never ever thought this day would come and I'm sorry auntie that you're gone but you're definitely not forgotten and never will be forgotten by me I love you so much and thank you for being a good auntie to me and treating me how an auntie supposed to treat a niece, you always been solid with me people don't know how deep our relationship was and I just want to thank you for all you done for me and I love you now you have your wings heaven definitely gained an angel, you up there with your sister and brothers I love you and y'all watch over us see you when I get there...
